'28—A—Civil Engineering—M. O.' As the House knows, the public have decided to erect a statue of His Highness the Maharaja in Ernakulam and the site selected for that is near the present Huzur jetty. 7. Rs. 24,000 under 28—A—Civil Engineering—B. O.

Mr. V. K. Aravindaksha Menon (*Chief Engineer*): Sir, I rise to move for an additional allotment of Rs. 24,000 under '28—A—Civil Engineering—B. O.'. This expenditure is necessary for completing the work already taken up in the Guest House. There were certain minor deviations in the work. I request that the House be pleased to allow this grant.

Mr. C. R. Iyyunni (*Trichur-South*): May I know what is the nature of the deviation that has been subsequently added in the work. The amount appears to be rather huge.

Mr. V. K. Aravindaksha Menon (*Chief Engineer*): There have been small excess in the estimates in a few items. The important one is an item of Rs. 3,000 for putting up a hot water system in the Guest House. Then for doing some water-proofing arrangement, roughly an expenditure of Rs. 1,700 is necessary. Then for some sanitary fittings, Rs. 2,000. There are similar other items numbering in all 25.

Mr. T. V. Subramania Ayyar (*Nemmara*): May I know the amount spent up to this time on the Guest House?

Mr. V. K. Aravindaksha Menon (*Chief Engineer*): The expenditure on the Guest House till the benginning of this year was 1,01,498. We have to spend Rs. 1,40,000 this year. That is the amount spent on the Guest House alone.

Mr. T. V. Subramania Ayyar (*Nemmara*): What about the land acquisition cost?

Mr. V. K. Aravindaksha Menon (*Chief Engineer*): Land acquisition is a different class of work altogether. It is a work for improving the town and to sweep away marshy places. I refer only to the construction of the House. Its minimum cost would be Rs. 2,34,000.

Mr. E. Ikkanda Warrier (*Cheruthuruthi*): Does it represent the cost on the building alone?

Mr. V. K. Aravindaksha Menon (*Chief Engineer*): Building, electrical installation and other fittings?
